

DRSS Referral Template V5 2017

The new DRSS referral template V5 2017 is now ready to use. The proforma includes merge fields for your clinical systems to support "In Shape for Surgery". Please feel free to change the merge fields if they are not pulling out the correct data. See links to download appropriate version below:

Blank – No Merge Fields

Systmone

If you are a member of the DRSS Practice Liaison Group the DRSS referral template V5 2017 has been published to your Practice via Systmone. Please feel free to change any of the merge fields if they are not pulling out the correct data. You can do this by copying the referral template.

If your Practice is not a member of this Group please use link [Systmone DRSS Referral Template V5 2017](#)

If your practice wishes to join the DRSS Practice Liaison, to enable future templates to go directly into your clinical system please email andrea.phare@nhs.net.

Emis Web

[Emis Web DRSS Referral Template V5 2017](#) Select link to download using "Save As" to import into Emis Web. See also instructions [How to import Referral Templates into Emis Web](#).

Microtest

[Microtest DRSS Referral Template V5 2017](#)

Microtest will import the DRSS Referral Template into all Microtest Practices clinical systems directly.

In some clinical systems you will need to unprotect the template to select the drop down boxes, please use the padlock icon  to do this. Please see instructions on how to add the padlock icon to your ribbon.
